

Early Childhood Materials Showcase

(appropriate for teachers of children ages 4-7)

Wednesday, February 8th, 2012

Bayer Professional Development Academy @ ASSET
2403 Sidney Street, Suite 800
Pittsburgh, PA 15203

9:30 - 11:30 A.M. or 4:30 - 6:30 P.M.

ASSET STEM Education is expanding its successful program with Pennsylvania's teachers of students ages 4-7.

Please join us as ASSET Resource Teachers and representatives from Science and Technology for Children (STC) will display and discuss six newly developed early childhood STEM (science, technology, engineering and mathematics) modules.

Newly developed STEM modules and strands include:

Life Science

Discovering Animals
Discovering Plants
My Senses

Earth Science

Digging Earth Materials

Physical Science

Patterns All Around
Push, Pull, Go

Technology/Engineering

Digging Earth Materials
Push, Pull, Go

Recommended attendees: principals, curriculum coordinators, teachers of children ages 4-7, and ASSET Support-on-Site liaisons.

Please R.S.V.P. by registering through ASSET Online Services or contacting Meredith DeLecce at mdelecce@assetinc.org by **Wednesday, February 1st.**
